BACKGROUND & TYPE OF RESPONDENTS

Rural Renewable Energy Project (RREP), Sierra Leone is a pioneering project that has achieved significant change since 2016. Based as part of the project impact monitoring process which ensures that the voices of the people who are most affected by the project are heard, a total of 392 change stories have been collected. The stories have been analysed using the Most Significant Change approach. The stories have been collected from 3 districts in the Western Area, Bo and Kenema. The stories have been collected from 3 districts in the Western Area, Bo and Kenema. The stories have been collected from 3 districts in the Western Area, Bo and Kenema
